W. A. DREW EDMONDSON, in his)
capacity as ATTORNEY GENERAL)
OF THE STATE OF OKLAHOMA and)
OKLAHOMA SECRETARY OF THE)
ENVIRONMENT C. MILES TOLBERT,))
in his capacity as the)
TRUSTEE FOR NATURAL RESOURCES)
FOR THE STATE OF OKLAHOMA,)

Plaintiff,)

vs.)

4:05-CV-00329-TCK-SAJ

TYSON FOODS, INC., et al,)

Defendants.)

VOLUME I OF THE VIDEOTAPED
30(b)(6) DEPOSITION OF TEENA GUNTER, produced
as a witness on behalf of the Defendants in the
above styled and numbered cause, taken on the 27th
day of August, 2008, in the City of Oklahoma City,
County of Oklahoma, State of Oklahoma, before me,
Lisa A. Steinmeyer, a Certified Shorthand Reporter,
duly certified under and by virtue of the laws of
the State of Oklahoma.

EXHIBIT

1

1 facilities that are permitted by them.

2 Q Okay. Is there any other arrangement similar
3 to that between ODAFF and any federal agency that
4 would be related to the land application of poultry
5 litter or water quality? 11:51AM

6 A Wait.

7 MR. LENNINGTON: Object to the form.

8 Q First, land application of litter.

9 A You expanded that dramatically. What do you
10 want to know? 11:51AM

11 Q Any arrangements with ODAFF and any federal
12 agency regarding land application of litter?

13 A We have a grant that we draft plans for the
14 USDA NRCS.

15 Q Okay. What does that grant entail? 11:52AM

16 A We're paid a -- or some of our contract folks
17 are paid -- the department is paid a fee for each
18 waste management plan that we produce for NRCS.

19 They are not department product. They are -- we are
20 the technical service provider essentially in that 11:52AM
21 arrangement.

22 Q Okay. ODAFF is writing animal waste
23 management plans for NRCS?

24 A Yes.

25 Q Okay, and that's covered by a grant? 11:52AM

TULSA FREELANCE REPORTERS
918-587-2878

1 A The grant is -- pays ODAFF a particular amount
2 per plan.

3 Q Okay, and what body of law requires these
4 animal management or animal waste management plans?

5 A Well, our -- the Poultry Act requires a 11:53AM
6 facility to have the waste management plan, as well
7 as the CAFO Act would, and the applicator does in
8 some cases require one.

9 Q Okay. So the federal grant is paying ODAFF to
10 write plans under the various acts that require an 11:53AM
11 animal waste management plan?

12 A No.

13 Q No?

14 A No, they're not writing -- we're strictly
15 writing them for NRCS as though we were an NRCS 11:53AM
16 field office in that respect.

17 Q Okay, but the plans are for Oklahoma?

18 A They are not for us. They are for NRCS and
19 the producer.

20 Q Okay. The plans are for NRCS and the 11:54AM
21 producer, the poultry producer?

22 A Yes.

23 Q Okay. In satisfaction of Oklahoma law,
24 whether it be the CAFO law or the Registered Poultry
25 Feeding Act; is that correct? 11:54AM

TULSA FREELANCE REPORTERS
918-587-2878

1 Q Okay, and a spring in the middle of my field,
2 is that something that would be taken into
3 consideration in my animal waste management plan?

4 A It would, but it's a matter of is it an annual
5 stream, is it year round, does it always have flow 04:03PM
6 or is it only certain times of the year, and is that
7 all taken into account, and then are there certain
8 times of the year after a big rainfall in another
9 area of the state that infiltrates groundwater, does
10 it come up through that field and create a runoff 04:03PM
11 problem from that site. I mean, there's just so
12 many different ways that it can occur.

13 Q Okay. We need to change tapes. We'll take a
14 little break.

15 VIDEOGRAPHER: We're now off the Record. 04:03PM
16 The time is 4:03 p.m.

17 (Following a short recess at 4:03 p.m.,
18 proceedings continued on the Record at 4:15 p.m.)

19 VIDEOGRAPHER: We are back on the Record.
20 The time is 4:15 p.m. 04:15PM

21 Q Miss Gunter, before we went on break, we were
22 talking about this Paragraph 7C in the regulations.
23 You've given several examples. Would you agree with
24 me that there has to be a violation of the animal
25 waste management plan before there can be a runoff 04:16PM

TULSA FREELANCE REPORTERS
918-587-2878

1 in this as --

2 A No.

3 Q No. So your testimony is I can -- Farmer

4 Jones, he can observe everything that's required of

5 him in his animal waste management plan and he can

04:16PM

6 still be in violation of this Paragraph C?

7 A The animal waste management plan is one piece

8 of the statutory requirements, and there are many,

9 many, many requirements in that animal waste

10 requirement plan. However, throughout the statute

04:16PM

11 there are also things regarding -- for example, look

12 at the BMP section that we talked about a second ago

13 in the statute on the 10-9.7, no discharge of

14 poultry waters to waters of the state. No waters --

15 well, there's a given, but poultry waste handling,

04:16PM

16 treatment, management and removal shall not create

17 an environmental or a public health hazard, not

18 result in the contamination of waters of the state

19 and conform to such other handling, treatment,

20 management and removal requirements deemed necessary

04:17PM

21 by the department. Again, in the statute under C6C,

22 poultry waste shall only be applied to suitable land

23 at appropriate times and rates. Discharge or runoff

24 of waste from the application site is prohibited. I

25 mean, all of those things work together to create

04:17PM

TULSA FREELANCE REPORTERS
918-587-2878

1 the provisions that Farmer Jones has to comply with.

2 Q Okay. How does Farmer Jones comply with all
3 of those if it's not the animal waste management
4 plan?

5 A He's extra careful and he evaluates his field 04:17PM

6 and he looks at them, and if he can -- the waste
7 management plan is a ceiling in many cases. There's
8 all kinds of level you can land apply at that don't
9 have to be as much as the waste management plan says

10 at every occasion. You can ratchet that down, and 04:18PM

11 you can land apply a little whenever you think it's
12 a time of year that may not be your best time of
13 year that runoff can occur. You can take all kinds
14 of steps in addition to your plan. I mean, your

15 plan is let's do this, but it's you better not do 04:18PM

16 beyond this as far as application and things like
17 that go, but there's a million levels below that a
18 responsible farmer, as the farmer you described, can
19 look at, and if he wants to say, okay, well, my

20 waste management plan says I can do this, but my 04:18PM

21 soil test, for example, at the bottom, OSU says
22 don't go above 65. Okay. I'll not go above 65
23 because that's the plant utilization, that the crops

24 might not take up more than that. So if I'm going

25 to be over the top careful and not create an 04:19PM

TULSA FREELANCE REPORTERS
918-587-2878

1 you can apply in your animal waste management plan?

2 A No. It's one of the many factors that you
3 look at in the -- a plan is not rote, thou shalt do
4 this, that shalt do this and you'll never have a
5 problem. A plan is just exactly what it says. It's

04:20PM

6 a plan. Here's guidelines. Here's things you need
7 to take into consideration. Yes, you're required to
8 take these things into consideration whenever you
9 are doing your land application but, again, it's
10 very similar. You don't want to exceed what they

04:21PM

11 recommend in that plan, but all of that
12 documentation should be taken into account by the
13 individual producer when they're making sure they're
14 in perfect compliance with the entire law.

15 Q Okay. My question still remains, how do they
16 know if they're in compliance with the entire law?
17 You testified just a moment ago that there are a
18 million levels below this animal waste management
19 plan ceiling.

04:21PM

20 A I keep using a million, don't I?

04:21PM

21 Q Yeah.

22 A It's a good number I guess.

23 Q At what point -- how do I know if I'm in
24 operation and I've got this animal waste management
25 plan, at what level of these million levels do I

04:21PM

**TULSA FREELANCE REPORTERS
918-587-2878**

1 know --

2 MR. LENNINGTON: Objection to form.

3 Q -- am I in violation of all of these laws and
4 regulations?

5 A You can ensure that if you do the sampling. 04:22PM

6 You can go above and beyond all of these things, any
7 of the basic requirements listed in your plan. You
8 can do -- you can get additional education. You can
9 get someone to come out from the extension to give
10 you additional guidance. You can go to NRCS and ask 04:22PM

11 for additional guidance, I mean, beyond what they
12 put together in their plan. All of these things are
13 free services that are provided to farmers in
14 virtually every county in the country. You can
15 go -- you've got your soil test results. He looks 04:22PM

16 at those soil tests results. He sees that
17 recommendation and says, hey, okay, that's another
18 way I can maybe ensure because I know that's lower
19 than this number, but I want to ensure that I'm in
20 compliance and don't have any runoff. You put in 04:22PM

21 grass buffer strips, all of those kinds of things
22 that you choose to do. I mean, you are talking
23 about the quintessential farmer that wants to do
24 everything perfectly, and he can do his own sampling
25 and make adjustments if he wants to or he can work 04:23PM

TULSA FREELANCE REPORTERS
918-587-2878

1 with an entity to do his own sampling downstream --
2 above and down, and he'd have results that he could
3 see if he's contributing and, I mean, that's just
4 another tool that is available to him.

5 Q Okay. To do his own sampling? 04:23PM

6 A Yes.

7 Q Okay. Up and downstream?

8 A It's possible.

9 Q Okay. What does the State of Oklahoma do to
10 verify or to determine whether an owner or operator 04:23PM
11 of a poultry facility subject to the Registered
12 Poultry Feeding Operations Act is in violation of
13 this Paragraph 7C or any of these other provisions
14 that you've specified?

15 A Our minimal starting point is look at the 04:23PM
16 plan, look at their land application records, look
17 at their soil test records, look at their litter
18 analysis records.

19 Q Okay, and how can you tell whether there's
20 runoff if you look at the animal waste management 04:24PM
21 plan?

22 A Then you compare that to -- you compare that
23 waste management plan to all the record keeping that
24 they've done. As a whole, you do a site inspection.
25 It's not something obviously that you can do just in 04:24PM
